

SAAMYUKKTH SURESH

Generative AI Engineer | Agentic AI, RAG & LLM Applications

Chennai, Tamil Nadu, India | +91 93424 83010 | saamyukkth.s@gmail.com
linkedin.com/in/saamyukkth-s-787119222 | github.com/saamyukkth26

PROFESSIONAL SUMMARY

Generative AI engineer with 1.5 years at Prodapt (including internship) shipping production LLM systems: a real-time voice AI interview platform with live answer analysis, RAG conversational assistants, and vector-search skill intelligence on Milvus. Builds agentic workflows with LangGraph, CrewAI, and MCP, focused on retrieval quality, structured outputs, and reliable async FastAPI backends.

TECHNICAL SKILLS

GenAI & LLMs: Azure OpenAI (GPT-5 mini, embeddings), Claude API, RAG, hybrid retrieval (BM25 + dense), cross-encoder re-ranking, prompt and context engineering, structured outputs, LLM-as-judge evaluation

Agentic AI: LangGraph, LangChain, CrewAI, Model Context Protocol (MCP), Claude Agent SDK, Claude Code, tool calling, multi-agent orchestration, self-correcting agent loops

Speech & ML: Azure AI Speech (neural TTS, speech-to-text, SSML), Scikit-learn, SHAP (Explainable AI), Hugging Face Transformers, embeddings, semantic search

Data & Vector Stores: Milvus, Neo4j, MySQL, Redis

Backend & Cloud: Python, FastAPI, async programming, WebSockets, SSE, Pydantic, REST APIs, microservices, Docker, Microsoft Azure, CI/CD, Git/GitHub

Languages: Python, SQL, TypeScript, JavaScript

PROFESSIONAL EXPERIENCE

Software Development Engineer, Prodapt, Jul 2025 – Present

Chennai, Tamil Nadu

- Built an end-to-end **AI Interview Platform** automating the hiring funnel: LLM-generated job descriptions with schema-validated structured outputs (Azure OpenAI, Pydantic), candidate-to-JD matching via embedding similarity across skills and work experience (Milvus), and AI-generated, role-specific interview plans.
- Engineered a **real-time voice AI interviewer** using Azure AI Speech (neural TTS with SSML voice and prosody control, speech-to-text) streamed over WebSockets; GPT-5 mini analyzes each answer in the context of previously answered questions to score responses, probe weak areas, and adapt follow-up questions live.
- Architected **SKILLOS**, an AI skill-intelligence platform (Azure OpenAI embeddings + Milvus) for semantic skill extraction, vector search, and competency-gap analytics across 1,000+ employee profiles.
- Engineered a GenAI assessment engine (LLMs, FastAPI microservices, MySQL) with dynamic question generation and embedding-based answer scoring, reducing manual assessment effort by ~60%.
- Built employee-attribution prediction models (Scikit-learn, SHAP) evaluated on ROC-AUC 0.65 and recall for at-risk employees, serving feature-level explanations to HR stakeholders via REST APIs.

Software Development Engineer Intern, Prodapt, Jan 2025 – Jul 2025

Chennai, Tamil Nadu

- Designed and shipped a production RAG conversational AI platform (LangChain, LangGraph, Azure OpenAI, Milvus) with semantic document retrieval, contextual Q&A, and memory-persistent multi-turn dialogue over async REST endpoints.
- Built CrewAI multi-agent workflows for news aggregation and LLM-powered summarization with asynchronous task orchestration, cutting manual content-processing time by ~70%.

PROJECTS

Lumora: AI-Powered Personal Knowledge Management System - Python, FastAPI, LangGraph, MCP, Neo4j, React

github.com/saamyukkth26/Lumora | Live: lumora-rust-three.vercel.app

- Built a hybrid RAG pipeline (BGE-M3 dense + BM25 sparse retrieval with cross-encoder re-ranking) over PDFs, notes, and web content, served through FastAPI with real-time SSE streaming chat.
- Designed self-correcting LangGraph research agents (critique, refine, re-search) orchestrating 4 MCP tool servers: filesystem, web search, arXiv, Wikipedia.
- Built LLM entity extraction into a Neo4j knowledge graph with React Flow visualization; deployed via Docker on Vercel and Render.

EDUCATION

B.Tech, Computer Science (Specialization in Artificial Intelligence & Machine Learning), 2021 – 2025

Vellore Institute of Technology (VIT), Chennai | CGPA: 8.65 / 10

CERTIFICATIONS

- Claude Certified Developer – Foundations**, Anthropic: Claude API, Claude Code, agent development, MCP, tool use.
- Claude Certified Architect – Foundations**, Anthropic: agentic architecture, multi-agent orchestration, tool integration.
- LLM Engineering: Master AI, LLMs and Agents (Udemy) | LangChain & LangGraph LLM Applications (Udemy)
