

SAAMYUKKTH SURESH

AI Software Engineer | Generative AI, Backend Systems & Enterprise AI Delivery

Chennai, Tamil Nadu, India | +91 93424 83010 | saamyukkth.s@gmail.com
linkedin.com/in/saamyukkth-s-787119222 | github.com/saamyukkth26

PROFESSIONAL SUMMARY

Software engineer with 1.5 years at Prodapt (including internship) building and shipping production GenAI platforms end to end: a real-time voice AI interview platform, RAG assistants, and vector-search skill intelligence. Combines LLM and agentic AI depth (LangGraph, CrewAI, MCP, Azure OpenAI) with solid backend engineering (Python, FastAPI, async microservices, WebSockets) and experience turning HR and business workflows into AI products stakeholders use.

TECHNICAL SKILLS

GenAI & Agentic AI: Azure OpenAI (GPT-5 mini, embeddings), Claude API, RAG, hybrid retrieval and re-ranking, LangGraph, LangChain, CrewAI, Model Context Protocol (MCP), Claude Agent SDK, Claude Code, prompt and context engineering, structured outputs, LLM evaluation

Speech & ML: Azure AI Speech (neural TTS, speech-to-text, SSML), semantic search, Scikit-learn, SHAP (Explainable AI), Hugging Face Transformers

Backend & Languages: Python, FastAPI, async programming, WebSockets, SSE, REST APIs, microservices, Pydantic, SQL, C++, TypeScript, JavaScript, React, Next.js

Data, Cloud & DevOps: Milvus, MySQL, Redis, Neo4j, Microsoft Azure, Docker, CI/CD, Git/GitHub, unit testing

Delivery: Requirements gathering, solution design, system design, stakeholder communication, demos, Agile/Scrum, Jira

PROFESSIONAL EXPERIENCE

Software Development Engineer, Prodapt, Jul 2025 – Present

Chennai, Tamil Nadu

- Built an end-to-end **AI Interview Platform** for talent-acquisition workflows as FastAPI microservices: LLM-generated job descriptions with schema-validated structured outputs (Azure OpenAI, Pydantic), candidate-to-JD matching via embedding similarity on skills and work experience (Milvus), and AI-generated, role-specific interview plans.
- Engineered a **real-time voice AI interviewer** streamed over WebSockets, integrating Azure AI Speech (neural TTS with SSML voice control, speech-to-text) with GPT-5 mini, which analyzes each answer against previously answered questions to score responses and adapt follow-ups live.
- Architected **SKILLOS**, a skill-intelligence platform (Azure OpenAI embeddings + Milvus) with scalable backend pipelines for semantic skill extraction, vector search, and competency-gap analytics across 1,000+ employee profiles.
- Engineered a GenAI assessment engine (LLMs, FastAPI microservices, MySQL) with dynamic question generation and embedding-based scoring, reducing manual assessment effort by ~60%.
- Built attrition prediction models (Scikit-learn, SHAP; ROC-AUC 0.65) and exposed feature-level explanations to HR stakeholders via REST APIs, turning model output into actionable reasons.

Software Development Engineer Intern, Prodapt, Jan 2025 – Jul 2025

Chennai, Tamil Nadu

- Designed and shipped a production RAG conversational AI platform (LangChain, LangGraph, Azure OpenAI, Milvus) with semantic retrieval, contextual Q&A, and memory-persistent multi-turn dialogue over async REST endpoints.
- Built CrewAI multi-agent workflows for news aggregation and LLM summarization with asynchronous orchestration, cutting manual content-processing time by ~70%.

PROJECTS

Lumora: AI-Powered Personal Knowledge Management System - Python, FastAPI, LangGraph, MCP, React, Neo4j

github.com/saamyukkth26/Lumora | Live: lumora-rust-three.vercel.app

- Took a full-stack knowledge-management product from idea to live deployment: hybrid RAG (BGE-M3 dense + BM25 with cross-encoder re-ranking) over PDFs, notes, and web content, served via FastAPI with SSE streaming chat and a React + TypeScript UI.
- Designed self-correcting LangGraph research agents (critique, refine, re-search) orchestrating 4 MCP tool servers: filesystem, web search, arXiv, Wikipedia.
- Built LLM entity extraction into a Neo4j knowledge graph with React Flow visualization; deployed via Docker on Vercel and Render.

EDUCATION

B.Tech, Computer Science (Specialization in Artificial Intelligence & Machine Learning), 2021 – 2025

Vellore Institute of Technology (VIT), Chennai | CGPA: 8.65 / 10

CERTIFICATIONS

- Claude Certified Developer – Foundations**, Anthropic: Claude API, Claude Code, agent development, MCP, tool use.
- Claude Certified Architect – Foundations**, Anthropic: agentic architecture, multi-agent orchestration, tool integration.
- LLM Engineering: Master AI, LLMs and Agents (Udemy) | LangChain & LangGraph LLM Applications (Udemy)
